

REHAKLINIK ZIHLSCHLACHT NEUROLOGICAL REHABILITATION CENTRE

Rehaklinik Zihlschlacht is around 50 minutes from Zurich and approximately 20 minutes from St Gallen by car. It is situated in the heart of the Canton of Thurgau in the picturesque village of Zihlschlacht.

SPECIALISATION

Rehaklinik Zihlschlacht treats people with brain and nerve injuries with the aim of rehabilitating them for their day-to-day personal and working lives. Our motto «We'll get you back doing the things you love» sums up what we strive towards each day, as one of Switzerland's leading neurorehabilitation hospitals. Rehaklinik Zihlschlacht has special departments for all stages of rehabilitation: from highly specialised early rehabilitation for the most severely affected patients, to targeted training exercises for largely independent patients. Our hospital also specialises in the rehabilitation of specific diseases such as Parkinson's disease and multiple sclerosis (MS).

Rehaklinik Zihlschlacht integrates ultra-modern technologies into our patients' daily therapies and is equipped with the largest range of computerised and robot-assisted therapeutic devices in Switzerland. Our intensive, personalised rehabilitation programmes are carried out by specialised therapists and yield outstanding therapeutic results.
